

The proximity keys are certified IP68 and IK08 (waterproof and shock resistance). They have a metal ring to be placed on a key ring and contain a 8 hexadecimal code which can be not modified . The key uniqueness is guaranteed. The code is written to ease programming and identification.

It can be customized with screen printing or molding of the hull.

The FD-010-029 proximity keys are compatible with all 13.56Mhz readers and recommended for the use of Easy Door Controller system.

Technical characteristics

13.56 MHz

- Dimensions (L x W x T): 49mmx36mmx7mm
